

POSTDOCTORAL POSITION THEORETICAL PARTICLE PHYSICS

The Institute for Theoretical Physics and Astrophysics at the University of Würzburg invites applications for a postdoctoral position in theoretical particle physics to be filled in the fall of 2012 or earlier. The initial appointment will be for two years with a possibility of an extension. The applicants should have experience in collider physics and/or higher-order perturbative calculations.

The theoretical particle physics group currently consists of 12 faculty members and postdocs and about 20 PhD and master students. The research focus is on particle phenomenology, in particular LHC-physics.

The group is part of the particle theory network funded by the German Federal Ministry of Education and Research (BMBF), the DFG Research Training Group 1147 *Theoretical Astrophysics and Particle Physics* and the Strategic Helmholtz Alliance *Physics at the Terascale*.

Additional information can be found at

<http://theorie.physik.uni-wuerzburg.de/TP2/>.

Applications should be sent, including a CV, a list of publications and a brief research statement, to

*Prof. Dr. Ansgar Denner
Institut für Theoretische Physik und Astrophysik
Universität Würzburg, Campus Hubland Nord
Emil-Hilb-Weg 22
97074 Würzburg
Germany
email: denner@physik.uni-wuerzburg.de*

before December 5th, 2011. Later applications will be considered as long as openings exist. In addition, three letters of recommendation should be sent to the same address.

The University of Würzburg is an equal opportunity employer and encourages applications from women, handicapped people, and minorities.
